Part of the series of AS and A2 revision guides, this title gives students what they need to know for the AQA exams. It includes material organised into bite-sized chunks of information.

Collins AS Chemistry for AQA is the ideal resource to support you through the 2008 AQA GCE course. It has been developed with the help of AQA examiners to ensure a perfect match to the 2008 specification and provides everything you need to succeed in your exam. This book covers AQA Chemistry AS units: Unit 1 - Foundation Chemistry Unit 2 - Chemistry in Action The book includes the following features: • How Science Works feature boxes and assignments • Real world science in context at the start of every chapter • Questions throughout the text, with answers provided in the back of the book • Key fact summaries throughout the text • Stretch and challenge boxes to push the most able students • Exam-style questions at the end of every chapter • Practice synoptic questions The website includes the following additional support material: • Mark schemes for exam-style questions from the book • Sample student answers to exam-style questions at 2 levels with examiner comments to show students how to achieve a higher grade • Guidance for PSAs to help students to achieve the best grades in their practical assessments • Mathematical and examination technique guidance to ensure that students know how to best prepare for and handle their exams. Also available, Collins A2 Chemistry for AQA, covering: Unit 4: Kinetics, Equilibria and Organic Chemistry Unit 5: Energetics, Redox and Inorganic Chemistry

The books in this series present revision in a straightforward and user-friendly way. The authors give tips on common pitfalls and each guide contains help with the best ways to tackle different types of exam questions.

Student Unit Guides are perfect for revision. Each guide is written by an examiner and explains the unit requirements, summarises the relevant unit content and includes a series of specimen questions and answers. There are three sections to each guide: Introduction - includes advice on how to use the guide, an explanation of the skills being tested by the assessment objectives, an outline of the unit or module and, depending on the unit, suggestions for how to revise effectively and prepare for the examination questions. Content Guidance - provides an examiner's overview of the module's key terms and concepts and identifies opportunities to exhibit the skills required by the unit. It is designed to help students to structure their revision and make them aware of the concepts they need to understand the exam and how they might analyse and evaluate topics. Question and Answers - sample questions and with graded answers which have been carefully written to reflect the style of the unit. All responses are accompanied by commentaries which highlight their respective strengths and weaknesses, giving students an insight into the mind of the examiner.

Unlock your full potential with these revision guides which focus on the key content and skills you need to know. With My Revision Notes for AQA A2 Chemistry you can: Take control of your revision: plan and focus on the areas you need to revise with content summaries and commentary from author Rob King Use the worked examples to improve your understanding of chemical calculations Apply chemical terms accurately with the help of definitions and key words on all topics Improve your skills to tackle specific exam questions such as [subject example] with self-testing and exam-style questions and answers Get exam-ready with last-minute quick quizzes at [www.hodderplus.co.uk/myrevisionnotes](http://www.hodderplus.co.uk/myrevisionnotes)

This comprehensive revision guide matches the AQA specification exactly and provides students with engaging revision materials and exam-style questions to test knowledge and skills.

This chemistry text is written to match exactly the specification for teaching Advanced Chemistry from September 2000. There are two strands, AS and A2, with student books. The accompanying resource packs are also available on CD-ROM.

This biology text is written to match exactly the specification for teaching Advanced Biology from September 2000. Specification B is the updated version of the old NEAB syllabus. There are two student books, one for AS and one for A2.
