Gino De Dominicis (1947-1998) is one of the most emblematic and mysterious figures on the post war Italian art scene. A complex and elusive artist, Gino De Dominicis (1947-1998) is considered one of the key figures in contemporary Italian art and a reference point for both the artists of his time and younger generations. His life has always been shrouded in mystery. He chose to stay outside the sphere of media communications and due to this intransigent position no catalogues or books on his works were published. This catalogue brings together more than 700 artworks, each one accompanied by a dossier which, alongside the usual technical data, provides information regarding the circumstances that led to the works creation. It also includes a section devoted to the artists writings, a critical anthology and a general catalogue of his works.

Postwar Italian Art History Today brings fresh critical consideration to the parameters and impact of Italian art and visual culture studies of the past several decades. Taking its cue from the thirty-year anniversary of curator Germano Celant's landmark exhibition at PS1 in New York – The Knot – this volume presents innovative case studies and emphasizes new

methodologies deployed in the study of postwar Italian art as a means to evaluate the current state of the field. Included are fifteen essays that each examine, from a different viewpoint, the issues, concerns, and questions driving postwar Italian art history. The editors and contributors call for a systematic reconsideration of the artistic origins of postwar Italian art, the terminology that is used to describe the work produced, and key personalities and institutions that promoted and supported the development and marketing of this art in Italy and abroad.

Antonio Giangrande, orgoglioso di essere diverso. ODIO OSTENTAZIONE ED IMPOSIZIONE. Si nasce senza volerlo. Si muore senza volerlo. Si vive una vita di prese per il culo. Noi siamo quello che altri hanno voluto che diventassimo. Facciamo in modo che diventiamo quello che noi avremmo (rafforzativo di saremmo) voluto diventare. Rappresentare con verità storica, anche scomoda ai potenti di turno, la realtà contemporanea, rapportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perché la massa dimentica o non conosce. Denuncio i difetti e caldeggio i pregi italici. Perché non abbiamo orgoglio e dignità per migliorarci e perché non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi. Insomma, siamo bravi a farci del male e qualcuno deve pur essere diverso!

Socio ordinario dell'Accademia dei Georgofili dal 1 aprile 1772.

More than forty works trace Julian Schnabel's artistic career from the 1970s to the present day and provide the chance to admire the paintings and sculptures of a great creative man who is considered an all round American phenomenon. An internationally famous painter, sculptor and film director, Julian Schnabel stands out for his astonishing metaphoric skills and the overwhelming expressive power that comes through his work. Well known for his plate paintings, in reality Schnabel has used an endless number of varied materials and support systems to create his works, including velvet, oil skin, pieces of wood from all over the world, veils, photographs, rugs, tarpaulin and in general any flat surface that inspires his creative processes. Towards the end of the 1980s, Schnabel began using extra-large formats for his work. This magnificence, though at times read by critics as a mere attempt to impress the spectator, in reality was born from a desire by the artist to create a connection with the imposing paintings of the past commissioned by the State or Church, and with the big paintings of post war America. This retrospective illustrates his poetic is strongly inspired by Jackson Pollock and Cy Twombly, but also based on the European and Mediterranean tradition in that it evokes the style of the old Italian and Spanish masters such as El Greco and Tintoretto and reinterprets literary and cultural references that are ancient and modern, from Homer to
