I love poetry that is easily understood. Poetry that tells me about people and the world we live in and many of my favourite poems tell a story that we can all relate to. This is the type of poetry that I write. I've made a collection of the poems I've written over many years and put them together in this book. There's nothing mystical or difficult in these poems, they are an easy read. Some poems bring a tear to the eye when we read them, others make us laugh out loud. I

Most people know that there are 70 million Baby Boomers in America today...but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the

And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.
