The purpose of this guide is to give basic information about violin making. The aspiring violin maker will have the opportunity to build an instrument from start to finish with the help of step by step tutorials accompanied by drawn images.

*The violin making manual - MakingTheViolin.com*

While the violin does not have frets like a guitar, the right note is produced if the instrument is properly tuned and the string is pressed in the right position. However, being able to press the string down in the right position all the time requires practice. A number is assigned to each of the fingers of the left hand that press the strings. The index finger is 1, the middle finger is 2, the ring finger 3, and the little finger 4.

*How to Play the Violin: Fingering - Musical Instrument ...*

Start off by measuring the vibrating length of the A string. It's about 13 inches (33 centimeters) on most full-sized violins, so that's the length used for these steps: Use a tape measure to establish the length of the A string from the nut end of the fingerboard to the bridge.
